

Dear Guest,

Always seeking to maintain your property in excellent conditions, we inform you the remodeling of the main pool, La Palapa restaurant and the fountain at the entrance of the hotel from the marina board walk.

Due to these activities of improvement, the area will be closed during September. At this time our staff will be ready to provide the customary same services at the pool facing phase II building from 7:00a.m. to 8:00p.m., just as if you were at the Palapa restaurant; food and beverages, towels, lounge chairs, music, TV, table tennis, music, and free Wi-Fi.

At the same time we are planning, for the same dates, to paint all exteriors of the house. This will not disturb our guests and the operation, except when painting the balconies of the units. Guests will be asked permission when suites are occupied.

We also remind you that the Marina Golden Zone, our famous strip of fine Restaurants & Shopping along the marina in front of the hotel, has been refurbished in all its famous restaurants, that is Los Deseos, actual Mexican; Baja Lobster Co., sea food cuisine; Presto, italian food, and the grand opening of Jack's bar & grill and La Cantina by the Tequila Museum.

Thank you in advance for your understanding and support during these works, we look forward to welcome you here in your casa, The Marina Fiesta Resort & Spa.

Thank you,  
The Management
